

# Avast Security Pro for Mac

This is advanced real-time protection, crafted for your Mac

## Stop malware for Mac

Viruses, spyware, keyloggers — the world's largest threat detection network blocks attacks to your Mac before they even begin. This is advanced Mac security in real time.

## End ransomware threats

Wall off photos, documents and personal files against criminals who hijack them for money. Now nobody can alter what's yours, in any way, until you say so.

## Shield your privacy online

A safe Mac is essential. A safe you, even more so. Get instant alerts for network and router weaknesses, eavesdroppers, device hackers, unsafe sites and web trackers.

## Here's how Avast Security Pro measures up

	AVAST SECURITY PRO	AVAST SECURITY
<b>Block viruses and other malware</b> Detect viruses, spyware, and other threats in real time.	✓	✓
<b>Stay safer online</b> Be warned of unsafe sites and block intrusive web trackers.	✓	✓
<b>Scan for Wi-Fi security weaknesses</b> Find potential weak spots in your home network and router.	✓	✓
<b>Get real-time Wi-Fi security alerts</b> Be instantly alerted to network weaknesses and intruders.	✓	
<b>Stop ransomware</b> Keep personal photos and files safe from unwanted changes.	✓	
<b>Avoid fake websites</b> Automatically block phishing attempts to keep your data safe.	✓	

## There's so much more under the lid

### Real-time shields

- File Shield detects and blocks any malware that hits your Mac's hard drive.
- Web Shield looks after your browsing, stopping web-based malware and phishing attempts.
- Mail Shield removes all malicious email attachments.
- Ransomware Shield walls off any file or directory against attempts to alter them in any way.

### Scanning

- Schedule scans of your whole hard drive, or a particular area. Would you rather run one manually? You have the power.

### Automatic updates

- Avast Threat Labs releases updates almost every 5 minutes — and bigger, regular updates twice a day.

### System Requirements:

For Macs running macOS 10.10 (Yosemite) or later
