Protecting users’ online security and privacy with award-winning, cross-platform VPN and antivirus products, both free and premium. Plus, private online browsing with the Avast Secure Browser.

Safeguarding small and medium businesses from the growing threat of downtime, lost revenue, and reputational damage caused by cyberattacks with integrated, layered endpoint and network security solutions.

Helping users to boost their productivity with cleanup and performance products that optimize their personal computers by removing junk and unwanted files.

Securing home Wi-Fi networks as well as every smart device connected to them, both directly to consumers and through telecom partners so they can keep their subscribers safe.
