

## Jiří Bracek

### VP Threat Labs

Jiri Bracek joined Avast in 2016 through the acquisition of AVG Technologies as an Engineering Director and is now Avast's VP of Threat Labs, a team of more than 100 security experts dedicated to stopping malware attacks. His team's main focus lies on developing new analytical capabilities to map, understand and stop new threats in real time.

Jiri has 15 years of experience in computer security and software development. Prior to joining Avast, Jiri Bracek first worked at AVG as a Kernel-mode Developer. After four years he became a lead of a team developing AVG's scanning engine. In 2010, Jiri broadened his role as a director of AVG's Security Engineering team, which later included also Virus Lab team.

Jiri Bracek holds a Masters degree in Informatics from the Masaryk University in Brno.

Jiri spends his free time with his wife and their son. Jiri also likes listening to rock music and occasionally enjoys good wine with friends.
