

Gagan Singh

Senior Vice President & General Manager, IoT & Family

Gagan Singh is Senior Vice President and General Manager of Avast's IoT and Family business.

In his prior roles at Avast, Mr. Singh served as SVP and Chief Product Officer of Avast's consumer business, and as SVP & General Manager of Avast's mobile business, positioning the mobile business for continued growth, expanding its Carrier business outside the US and initiating our entry into the fast growing IoT Smart Home security market.

Prior to joining Avast, Mr. Singh was VP of Mobile Strategy, Engineering and Solutions at Moovweb, a SAAS company focused on cloud-based mobile experience optimization. From 2012 to 2014, he was EVP and Chief Technology Officer at VIZ

Media; and prior to that, he was founder and CEO of West Side Labs, Inc., with offices in New York City and Tokyo.

Mr. Singh has more than fifteen years' experience leading product, engineering, and marketing teams in both enterprise and consumer software companies.

Mr. Singh holds an MBA from MIT Sloan School of Management, an MPA from Harvard Kennedy School, and a BS in Electrical Engineering and Computer Science from UC Berkeley.
